"Invincible" is the featured single by BLUEBIRD

Bluebird is a female Australian Singer/Songwriter born and raised in Melbourne. She records her original music at home in her studio. With an established following on online forums such as Soundcloud, **Bluebird** is now focusing her music toward a wider audience through The A&R Department.

Bluebird is about to release her debut single, "Invincible", recorded in her home studio and produced by Ryan Miller (SAFIA, Angus & Julia Stone). When asked about how she created the song Bluebird said "Through working with A&R, I identified and developed the rough outline of a song that felt like it could reach a larger audience. So I took some time out and wrote the rest of the song while holidaying on the peninsula, a few changes later and "Invincible" was born."

"Invincible" is high energy soul filled Pop/Rock which speaks of the doubts and fears of those longing for their purpose and meaning in life and searching so far as to become lost, only to find the courage to let go and return home without answers. Fans of bands such as Coldplay, U2, and Divinyls are sure to like the flavour of "Invincible".
